Independent and Progressive

Baldwin Directory Company, Inc., publishers of this city directory and the world's largest independent publishers of city directories, is in no way connected with any national association or directory "trust". Its policies are laid down with a view to serving the individual directory subscriber and the general public. It is a progressive company, constantly on the alert to improve its service.

The ABCD type of city directory was originated by the Baldwin Directory Company, Inc. While many publishers have been content to rest on their laurels, issuing the same type of directory used 30 years ago, the Baldwin organization has led the way to the production of a modern city directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants' associations and individual business concerns are invited to write for particulars concerning this type of directory service. In the future, as in the past, Baldwin directories will stand for the highest ideals in public service.

INTRODUCTION

Baldwin Directory Company, Inc., publishers of your city directory, takes pleasure in presenting the 1938 edition to the general public. A large force of trained enumerators and solicitors worked diligently in the preparation of this volume and we are confident that the result is an authentic and useful city directory.

We have faith in the continued growth of your city and we believe that our directory will take its place as one of the vital instruments for the advancement of your community. Subsequent editions will be issued the advancement of the community. promptly and regularly.

This volume is an example of the ABCD type of city directory as originated and developed by the Baldwin Directory Company, Inc. In the modern business world with its greatly changed sales and credit systems, the old type of directory has become completely obsolete. In adapting the directory to modern conditions the Baldwin organization is the pioneer. The excellent city directory which your city now has is the result of the progressive spirit of this company and its accurate interpretation of modern business requirements.

SEVEN DIVISIONS OF THE BOOK

The principal parts of the Baldwin Directory are as follows:

1. *The Miscellaneous Directory* contains a great deal of useful information concerning the national, state and local governments. In it are listed the names of members of congress and the state legislature, city and county officials.

2. *The Buyers' Guide, Civic Section and Professional Blue Book* is made up of the advertisements of the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and professional card of public-spirited lawyers, physicians and dentists. The display spaces have been carefully grouped and indexed under headings which are descriptive of the business engaged in by each firm. The Buyers' Guide, when properly arranged and distributed, is of tremendous value in the building of business in the community.

3. *The Resident Directory* contains most of the data concerning the individual. The wife's name is given in parenthesis, and the number of dependents under 16 is shown as well as the ownership of homes. This is followed by position, place of employment and home address.

4. *The Householders' Directory* contains a complete directory of streets and avenues, properly located, gives the names of all householders arranged as they come upon the streets and avenues, indicates ownership of property.

5. *The Business Directory and List of Nationally Advertised Brands* contains the names of all business firms, professional people and non-profit organizations, properly classified. In this division are also listed the names of nationally advertised brands of merchandise, with the name of the local agents and distributors.

6. *The Numerical Telephone Directory* contains telephone numbers arranged in numerical sequence.

7. *The Rural Routes Directory,* which follows the Numerical Telephone Directory, is used constantly in reaching rural residents with advertising matter and other mail.

SPECIAL ABCD FEATURES

The following valuable information which appears in the ABCD type of directory is not to be found in the old-style city directory:

Number of dependents under sixteen;
Designation of home ownership.
Telephone Numbers on Street Guide.
Numerical Telephone Directory.
Nationally Advertised Brands.

In addition to these valuable features, the ABCD type of directory is more conservatively styled, printed on better paper and more beautifully bound, arranged for more convenient use and contains a much more complete civic section. Directory stands are maintained in the business district for the use of the general public.

THE HOUSEHOLDERS' SUPPLEMENT

After including every conceivable feature which would tend to make the directory as useful and attractive as possible, the originators of the ABCD type of directory made one more bold stroke—they established a guaranteed *home* circulation for advertising matter by issuing the Householders' Supplement and delivering it to the homes of the community. Every advertisement which appears in a Baldwin directory also appears in the Householders' Supplement, making the Baldwin Directory "America's greatest dollar-for-dollar advertising medium" today.

BALDWIN DIRECTORY CO., Inc.

EXPLANATION

All people sixteen years or over are listed.

Wives are listed with husbands, the wife being shown in parenthesis as follows: Smith Robt R (Mary L.)

The number of children under sixteen years is shown after the wife's name as follows: Smith Robt R (Mary L) 3.

The Ⓗ, both in the resident directory and the householders' directory designates ownership of the home.

In case of a natural widow this fact is shown with the name of the deceased husband in parenthesis, whenever possible, as follows: Smith Mary L (wid Robt R).

The occupation and place of employment are shown as follows: Smith Robert R (Mary L) clk Hub Clothing Co.

The residence of each person is shown, "h" denoting a householder or head of the family, "r" denoting people in the home. Only one person at each home should be shown with the "h." Thus, a circular mailed to each householder will reach every home in the city.

Married women, engaged in some other occupation than housekeeping, are listed individually in additon to their regular listing with their husbands, as follows: Smith Mary L (Mrs Robt R) bkpr Henry Jones & Co r 210 Main.

Names in heavy type denote patrons of the directory and are usually the leading firms in each line of business.

Persons living outside the city limits and receiving mail in the country are marked RD.

The letters BD shown on some entries indicate Buyers Directory.

Colored is shown by a ©. The publishers are very careful in using this, but do not assume any responsibility in case of error.

This directory contains all the regular departments of the modern city directory and many features used by no other publisher in the United States.

A numerical telephone directory will be found in the back of the directory listing each telephone according to number.

A Rural Route Directory will be found in back of this volume.

The classified business directory lists each firm according to line of business.

The numerical street directory lists each street alphabetically and each house according to number, with the street intersections as they appear. After each householders name will be found his telephone number. In case he has no telephone the nearest telephone may be found. The Ⓗ denotes householders who own the house in which they live.

The buyers guide carries the printed messages of the city's leading business and professional firms arranged alphabetically according to classifications.

This directory shows the exact population of the city and environs at the present time.

Lumberton

NORTH CAROLINA

Historic Lumberton, capital of "the State of Robeson," the old shipping port of the Lumber River, and 150 years ago known as Red Bank Plantation, this year celebrates its 150th anniversary. Lumberton became a town by act of the general assembly of North Carolina on November 3, 1788. It was incorporated in 1852—sixty-four years after its founding. The town was established on a 170-acre tract of land that had formed a part of the 11,776-acre plantation holding of Gen. John Willis, soldier of the American Revolution, and because of his efforts, Gen. Willis

E. M. Johnson, Mayor

has since come to be known as "the Father of Lumberton." Gen. Willis also had been instrumental in having Robeson County formed from lands formerly belonging to Bladen County.

Lumberton is thought to have been so named because of the fact it was the point of shipment of log rafts down the Lumber River to Georgetown, S. C.

Jacob Rhodes, a surveyor, laid out the town on the basis of a plat he filed under date of May 5, 1787, along with a plan for the conduct of a lottery to dispose of town lots. The lottery was scheduled for August 14, 1787.

Trees covered the entire area set aside to be made into the town of Lumberton, and many trees had to be cut down to make room for the courthouse, for business houses and for residences. Lots were laid off in half-acre size, with streets, a commons and public square.

Aerial view of the business district of Lumberton showing the section of the city devoted to tobacco in the background. Ten city blocks are already occupied by tobacco warehouses and factories. This year contracts will be let for the construction of two more warehouses, both occupying two and a half acres.

Where tickets calling for town lots were not presented, the town managers were directed to rent out the lots for the best prices obtainable. The five men to whom Gen. Willis had conveyed the town lands had been named by the new court of Robeson County to conduct the affairs of the lottery.

As the courthouse was the active center of Lumberton in its first days, so it has remained for the century and a half since the establishment of the county and the town. The first business houses were erected along the water front, known then as "the wharf," and up and down the present Elm Street.

Lumberton kept its position as the center of business and activity for the county for more than sixty years without any substantial increase in population over the first days of its founding. When the town was incorporated in 1852 it is recorded that the population ran from 200 to 300 persons.

When Lumberton incorporated, Dr. Edmund McQueen became the first mayor, while Col. John Rowland drew up the city ordinances and named the streets. The first town commissioners to serve with Dr. McQueen were E. Lewis, W. W. Gunn, J. M. Heartman and R. S. French.

It is doubtful if any of these first City Fathers would recognize anything in the vicinity of Lumberton, unless it be one of the many bends in the Lumber River, could they return now. Lumberton of 1938 is a city of 9751 inhabitants. Instead of depending on slow-moving barges which once brought freight up the Lumber River, the city is served by two railroads: the Virginia and Carolina Southern and the Seaboard Airline Railroads. In addition to these two railroads, seven hard-surfaced highways leading to the city from every direction make quick, cheap motor transportation from every part of the country possible. In 1852 there were no paved streets in Lumberton. A person plowed through mud to travel from one part of the village to another. When the present paving program is completed there will be very few residential streets in Lumberton that are not hard-surfaced. Instead of the two or three stores here in 1852, there are now nearly 150 mercantile establishments in the city.

The Lorraine Hotel. Modern, fire proof and containing 100 rooms.

City Hall, Lumberton, which also houses Lumberton's fire fighting equipment. Headed by Chief Ed. J. Glover, the Lumberton Fire Department functioned so well during 1937 that the city suffered only $5,022.00 fire damage that year.

Uptown in the business district a handful of country stores has been replaced by a group of modern store buildings that, if aligned, would stretch over a distance of 25 blocks. That the merchants who operate these stores are progressive is a proved fact since the latest government report shows that per capita Lumberton does a greater volume of retail business than any city in North Carolina its size and many more that are larger.

Lumberton has also become an industrial center. The principal industries of Lumberton consist of three cotton mills, one large fertilizer factory, one marble works, and two large tobacco factories and a large lumber plant.

When tobacco is mentioned it brings another of Lumberton's contributors of business to mind. Suddenly becoming aware of the possibilities of this city's tobacco market, its business men and merchants began to give it the support it merits. Because of the efforts of these men who have put their shoulders to the wheel, the Lumberton market has shown a steady increase in sales each year. Selling just a little more than 13,000,000 pounds of tobacco in 1934, the market reached an all-time high mark in volume when it auctioned 27,000,000 pounds of tobacco during the past season. While the development of Lumberton as a shopping and industrial center and tobacco market has been given first mention, one cannot overlook the development in other ways. Its public school system is one of the best in the state and enjoys an A-1 rating which is the highest that can be given, while its churches are another source of pride for its citizens. A person wishing to locate anew would have to go far to find a place as ideal as Lumberton. The climate is mild with a mean temperature of 63.3 degrees; in addition to its many churches and excellent school system, there are two 75-bed hospitals to which patients are brought from surrounding territory within a 50-mile radius. There is a modern fireproof 100-room hotel; banking facilities are of the best; there are two newspapers and the cost of living is reasonable, while two picture shows, a municipal bathing beach with a dance pavilion and a nine-hole golf course offer recreation.

That Lumberton is progressive is revealed in the statement that it supports a Chamber of Commerce and has three civic clubs: Rotary Club, Kiwanis Club, and the Minute Men's Club. But what appeals most to a person seeking a location, either to retire to a life of ease and comfort or to invest in business or industry, what stands out greatest is the fact that Lumberton is governed by a group of sound conservative businessmen, who, under the leadership of Mayor E. M. Johnson, have reduced the bonded indebtedness of the city from more than $850,000 to $314,500 in little more than a decade. This bonded indebtedness has been cut down steadily since Mayor Johnson came into office in 1923 and Lumberton boasts that it has never defaulted in the payment of either principal or interest on its indebtedness. The city tax rate has been gradually decreased since that time. This in itself is a splendid testimonial of the ability of those to whom the citizens of Lumberton have entrusted the management of the city's affairs.

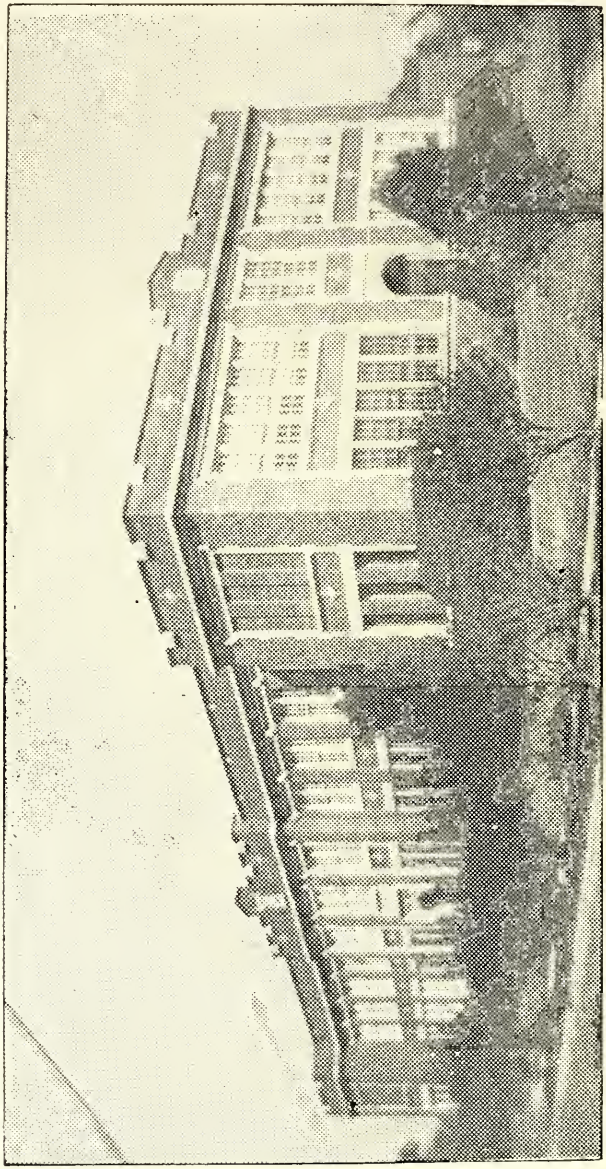

THE LATE ANGUS WILTON McLEAN

Former governor of North Carolina and at one time the head of the Federal War Finance Board, the late Mr. McLean, for many years (from early manhood until his death) a resident of Lumberton, was long recognized as the outstanding citizen of this section of the state. Mr. McLean was a native of Robeson and was a leader in the upbuilding of Lumberton and some of its largest commercial and industrial enterprises.

National Bank of Lumberton

This institution, founded in 1897, is this year celebrating its forty-first anniversary. It is the largest bank of Robeson county and one of the largest financial institutions in the southeast section of North Carolina. A. E. White is president, having been elected to that post about three years ago as the successor to the late Angus Wilton McLean.

The Lumberton High School, a part of the city's elaborate school system. The High School enjoys an A-1 rating (highest given by the State Board of Education.)

LUMBERTON'S FIRST SCHOOL BEGAN IN 1791

Lumberton Academy, established in 1791 under the leadership of Gen. John Willis, "the Father of Lumberton," is believed to have been the first educational institution in Robeson County. The first principal was David Kerr, who later joined the faculty of the University of North Carolina.

Some records indicate that Robeson County received from the state of North Carolina the first moneys to be spent by the state for general public education. Those making investigations into this question indicate they have not been able to establish this as an indisputable fact.

After Lumberton Academy, Prof. John A. McAllister, a noted teacher of the early days, headed an academy on West Elm Street, just beyond Tenth. Later Prof. McAllister was county superintendent of education for a number of years. Also he later served as county treasurer.

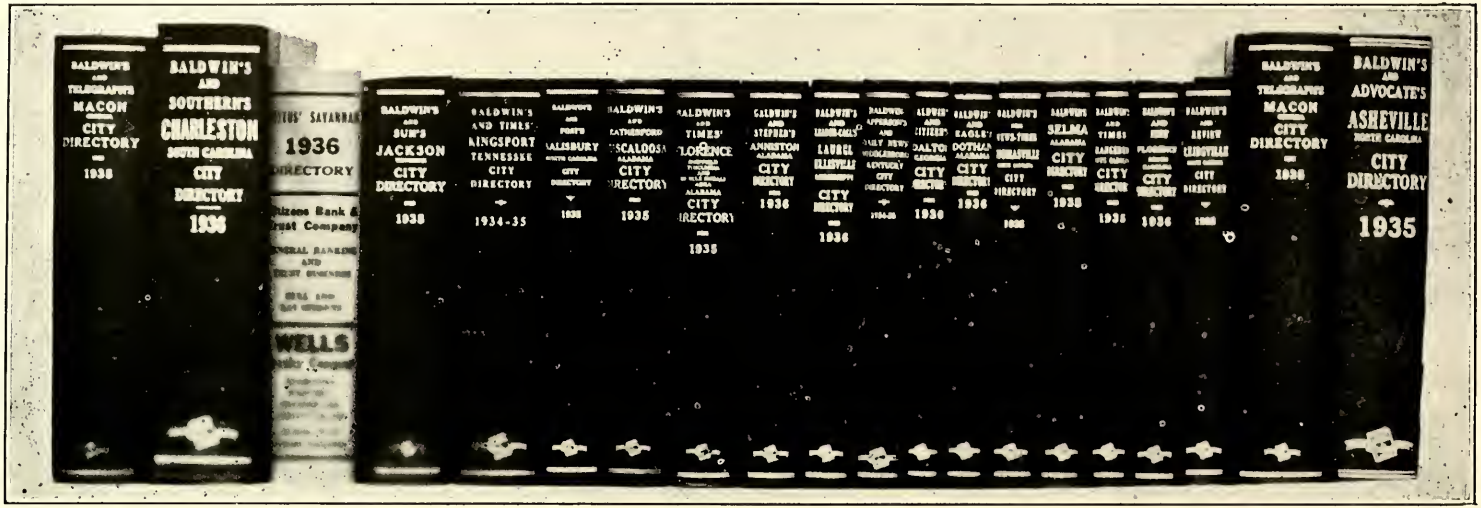

Robeson Institute was another pioneer school of the town This was headed by Prof. A. C. Melke, a German, under the auspices of the Baptist denomination.

It is a far cry from the Lumberton Academy established 148 years ago by Gen. Willis and the present elaborate school system under the supervision of Joe P. Moore, superintendent of city schools. There is no picture of the old Academy to reproduce. However, it was probably a one or two-room building. The cut of the Lumberton High School on opposite page shows progress in educational lines in keeping with the progress that Lumberton has shown commercially and industrially.

NORTH CAROLINA

Resident Directory

1938

Containing the full name, husband or wife's name, number of children under 16, designation of home ownership, position and employer and home address of all persons over 16 years of age, residing in this city and environs.

The publishers wish to express their appreciation to the business and professional establishments for the splendid co-operation and valuable assistance given them in the preparation of this volume.

A list of abbreviations used in this directory will be found on the following page and a general index on page 3. The information herein contained was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory, and checked with data supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

(FOR POPULATION OF GREATER LUMBERTON SEE PAGE 2)

Number of dependents under 16 is indicated after name.

NUMERICAL TELEPHONE DIRECTORY

1938

Containing a list of telephone subscribers arranged in numerical sequence. The information listed below was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the regular telephone directory issued by the local telephone company in order to verify the information contained therein.
